SUMMARY

Full Stack Developer who reads other people's code for a living and occasionally writes some of his own. Builds tools that quietly get out of the way so users can focus on what actually matters. Spent the last two years teaching AI to write better code — results inconclusive, productivity undeniable. Thrives at the intersection of clean architecture and mild confusion. Tends to name variables like they have feelings.

EDUCATION

Selcuk University

Sep. 2020 – June 2025

Bachelor of Science in Computer Engineering GPA: 2.98 / 4.0

Konya, Turkey

COURSES & CERTIFICATIONS

Meta Front-End Developer Certificate

Coursera — React, HTML/CSS, UI/UX

Google UX Design Certificate

Coursera — UX Research, Figma, Prototyping

JavaScript Algorithms & Data Structures

freeCodeCamp — Algorithms, Problem Solving

Test Engineering

BTK Akademi — Software Testing, QA, Test Automation

Object-Oriented Programming

BTK Akademi — OOP, SOLID, Design Patterns

Data Structures

BTK Akademi — Arrays, Trees, Graphs, Sorting

EXPERIENCE

TrueFeedBack Inc

June 2022 – March 2024

Full Stack Developer (Part-time)

Konya, Turkey

- Worked part-time for 2 years, initially as a volunteer and later in a paid role, contributing to both frontend and backend development. Built responsive web interfaces using React, TypeScript, HTML5, and CSS3, and integrated RESTful APIs to synchronize data across systems in real time. Collaborated with senior developers to improve platform performance, ensure data consistency through SQL analysis, and follow best practices in scalable application architecture.
- Developed features based on UI/UX principles using Figma designs, handled end-to-end development tasks, and contributed to problem-solving discussions while continuously improving code quality and workflow efficiency.

Yedaş

March 2024 – Aug 2024

Mandatory Internship

Samsun, Turkey

- Completed a 3-month compulsory workplace training developing internal web tools with Node-RED, Bootstrap, HTML, CSS, Js and jQuery, while working with ABAP enterprise systems. Contributed to responsive UI development and collaborated in an Agile, sprint-based team environment, demonstrating strong communication and ownership of tasks.

UnivestHub

March 2025 – June 2025

Internship – Full Stack Developer Intern

Istanbul, Turkey

- Completed a 3-month internship building decentralized web applications with Next.js and TypeScript. Integrated RESTful and GraphQL APIs, visualized token data, and interacted with smart contracts using Web3 libraries. Developed responsive user interfaces, optimized performance through refactoring, and implemented complex forms with React Hook Form and Zod. Managed global state using Redux Toolkit, Zustand, and Context API while following Git-based workflows and clean coding practices.

SKILLS

Languages: JavaScript, TypeScript, SQL

Libraries & Frameworks: React, Next.js, Node.js, Express, Fastify, Tailwind CSS, Shadcn/UI, Framer Motion, GSAP, Three.js, Redux Toolkit, Zustand, React Hook Form, Zod

Backend & API: REST, GraphQL, tRPC, API Design, Web3, Smart Contracts, Blockchain

Databases: PostgreSQL, MongoDB, Prisma, Supabase

DevOps & Tools: Git, Docker, CI/CD, Vercel, Postman, Jira, Figma, Agile, Scrum
